

Assembly instructions

Difficulty level:	beginner
Completion Time	4 - 8 hours

NECESSARY TOOLS

B&W Printer

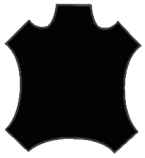

Scissors or a cutter

Hole Puncher **(We recommend 1.5 - 1.8 mm sized holes for this build)**

Approx 2 square feet of leather. **(We recommend 5-6 oz leather for this build)**

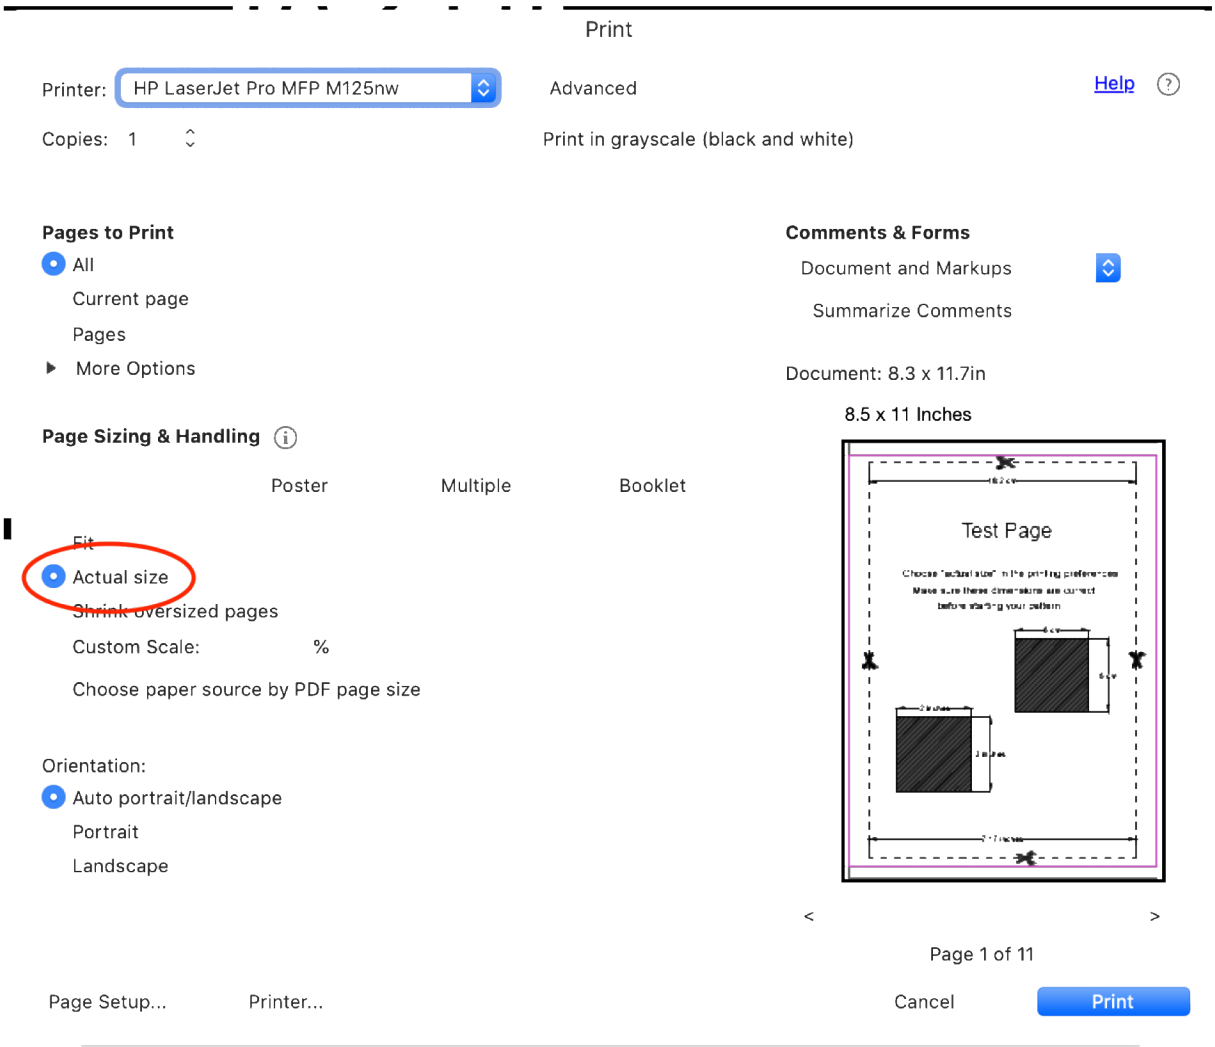

Thread and needles **(We recommend 1 mm waxed thread for this build)**

2 x D rings and a few rivets

PRINTING THE PATTERN

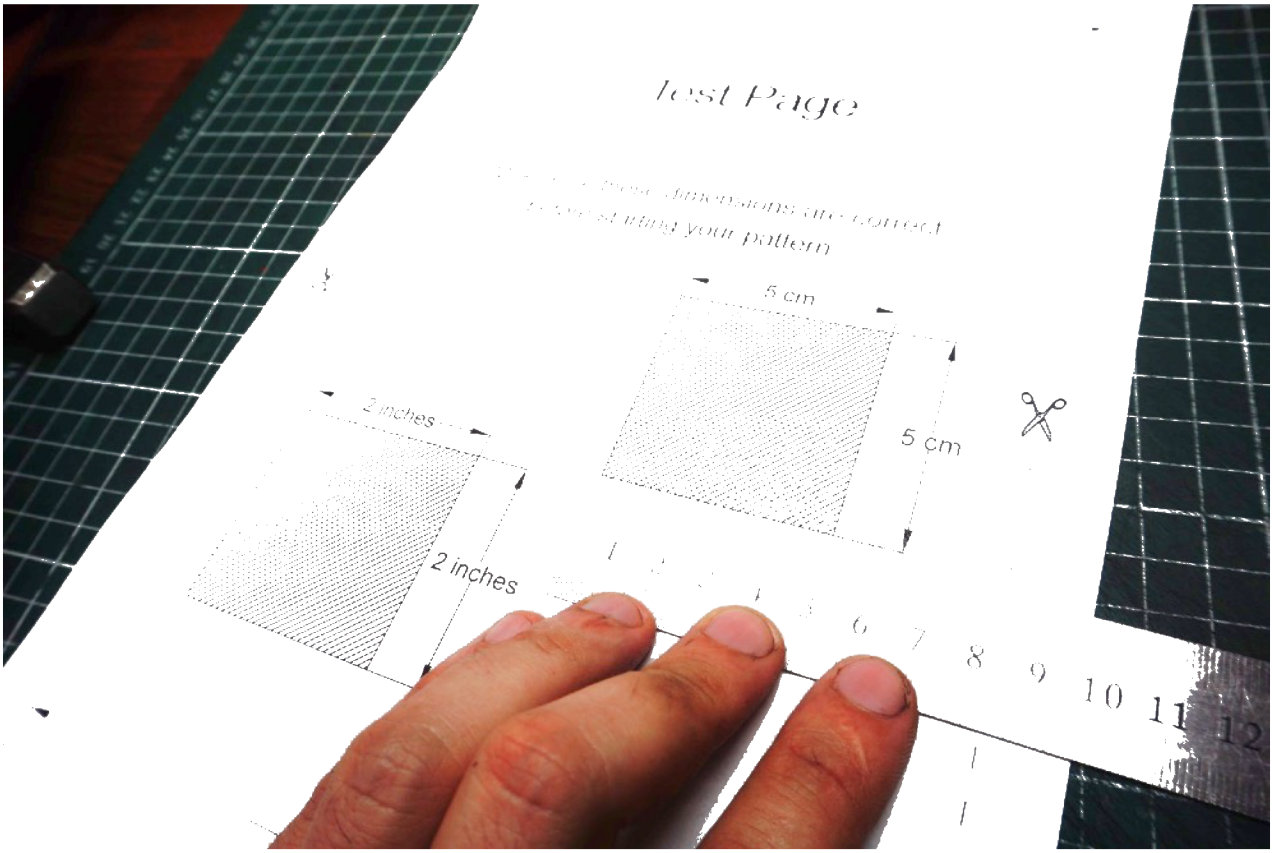

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

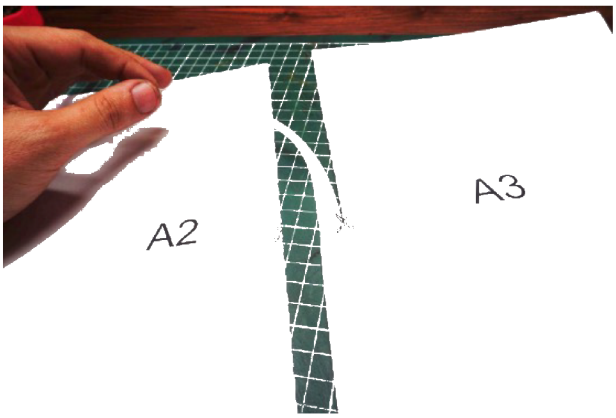

Print all the patterns.

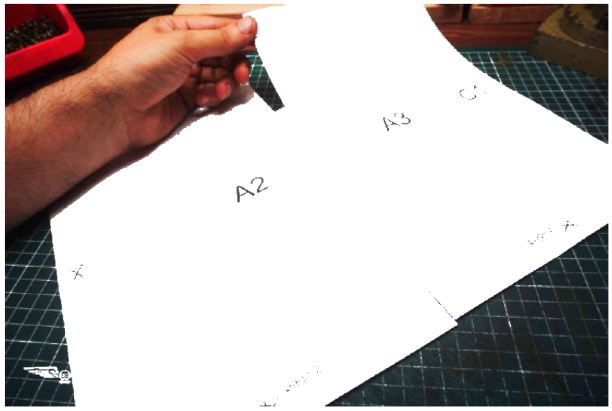

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

Take note the gusset is spread over two pages.

Cut out the edges and use only the inside of the page

In order to further help with your build, we filmed the entire process from the start to finish.
Please access your instructional video here:
